

Mission and Goals Statement

Mission:

To celebrate the gift of life through competition and camaraderie, and to educate, empower and bring hope to all those affected by organ donation.

Goals:

To **celebrate** the gift of life by promoting awareness of the critical need for organ, eye, bone marrow and tissue donations in all that we do and helping to increase the number of registered donors in the state of Illinois by 100 every year.

To **compete** in the Donate Life Transplant Games of America and raise funds so that as many transplant recipients, living donors, donor families, family members and supporters can attend.

To **commemorate** the lives of living donors and donor families who selflessly give the gift of organ, eye, bone marrow and tissue to those in need.
